

GRINDING ELECTROSPINDLE WITH AUTOMATIC WHEEL BALANCER

In the process of constant research and innovations in the electrospindle field in which our company has more than 30 years of experience, we are pleased to present you the model PSI-RG-180-TC, grinding electrospindle with automatic change of the wheel by the tool holder HSK-A-80 and automatic external balancing system of the grinding wheel.

This solution affords indisputable advantages thanks to the speed of the wheel change and finishing of the worked piece due to the balancing system of the grinding wheel.

Our technical department is at your disposal for any further clarifications.
